Frame Chair - Canvas fixation

Element overview

Fix the seat canvas first. Start by inserting the back strips into the back holes of the bottom frame and fix them with the long wooden pin. Then insert the front strips into the front holes of the bottom frame and fix them with the buckles.

Fix the back rest canvas. Start by inserting the bottom strips into the bottom holes of the back frame and fix them with the short wooden pin. Then insert the top strips into the top holes of the back frame and fix them with the buckles. That's it!
